

## Gainful Employment Disclosures for January 1 2012 – December 31 2012

The US Department of Education requires colleges to disclose a variety of information for any financial aid eligible program that “prepares students for gainful employment in a recognized occupation”. The information provided here is the best available to us but represents one year’s data only, however, we hope that this information is helpful to our current students and to prospective students as they make their career and educational choices.

If you have any questions regarding the data provided and what it means to you as a student, should please feel free to contact ACOT student services.

As of the date of this report, only Associates of Applied Science Degrees are approved for Title IV, you will notice there is no median loan debt for those programs.

Further, many of our higher level programs are new or have not yet started. Each program will be noted accordingly.
