DESCRIPTION

The Master of Business Administration (MBA) prepares individuals to face the advanced management and administrative challenges encountered in the current large scale and/or complex high-tech global organizations. The courses in the program are designed to provide the student with superior skills in online communications, leadership, marketing, information technology, operation management, and fiscal management needed to compete in the rapidly developing, highly competitive field of global business management. The Project and Operations Management focused electives of the program prepares students to attempt the Project Management Professional certification exam, offered by the Project Management Institute (PMI.org)
